Experience

Investment Taxonomy & Research Analyst

Photis Wealth AI (Remote)

Dec 2025 – Present

Singapore / Remote

- Built global investment taxonomy (instruments, wrappers, risks) for consistent classification and analytics.
- Researched funds/securities via Morningstar and disclosures; defined risk factors, macros, and outlook signals.
- Built Python pipeline + SQLite schema to store rules/mappings and enable scalable, auditable updates.
- Created rule-based scoring model to match client profiles to products; delivered dashboards and visuals.

Financial Analyst

Community Dreams Foundation

Aug 2025 – Present

Buffalo, NY

- Delivered recurring budget tracking, variance analysis, and KPI reporting to support program decisions.
- Supported analytics projects as SME: FX risk dashboard, buyer/investor recommender, debt optimization lab.
- Built Excel/ Python models and reporting templates to standardize data, improve quality, and document workflows.

Graduate Teaching Assistant (Financial Derivatives)

University at Buffalo

Jan 2025 – Jun 2025

Buffalo, NY

- Supported 150+ students; led exam prep and reviews on BSM, Greeks, hedging, and risk-neutral valuation.
- Created solution materials and graded assignments/exams with consistent standards and clear guidance.

Finance Manager (Investments and Operations)

Aurochild International School

Jan 2022 – Dec 2023

Cuddalore, India

- Led budgeting, cash planning, and monthly reporting; delivered variance insights to leadership.
- Owned AP/AR, fee collections, vendor payments, reconciliations, and compliance documentation.
- Managed a 3-member team and supported reserve/investment oversight with liquidity and risk monitoring.

Human Resources Associate

The Residency Towers

April 2021 – Jan 2022

Coimbatore, India

- Handled onboarding, payroll support, compensation/benefits coordination, and HR reporting using Excel.

Articled Assistant (CA)

Institute of Chartered Accountants of India

Jan 2018 – Oct 2020

Chennai, India

- Performed ledger scrutiny, reconciliations, and working papers supporting period-end reporting.
- Supported statutory/internal audits: vouching, testing, and documentation for control compliance. (GAAP, GASB)
- Assisted with GST/TDS and other filings; coordinated with clients to resolve issues and close on time.

Education

M.S. Finance (Quantitative Mathematics) | University at Buffalo, SUNY

Jan 2024 – Jun 2025 (GPA: 3.8)

M.B.A. (Finance / HR) | Anna University

2020 – 2022 (GPA: 3.7)

B.Com (Finance) | University of Madras

2017 – 2020 (GPA: 3.8)

Projects

VIX Replication Using SPX Options (Implied Volatility) | *R Programming, Excel*

- Built VIX replication in R using SPX option chain data, OTM puts/calls, and variance modeling based on CBOE methodology.

Multi Asset Portfolio Optimization & Monte Carlo Simulation - UB Endowment | *Python, Excel*

- Simulated 10,000 return paths (10 years) and selected optimal portfolios using constraints, utility scoring, and downside risk metrics.

Certifications

Bloomberg Certifications (BMC, BFF, BQL) | Power BI & DAX Essentials (CFI) | Microsoft Excel Expert | Python - Finance (IBM)
